

Restaurant Employee Demographics

Data Brief – April 2025

Introduction

The restaurant and foodservice industry is the nation's second largest private sector employer, providing 15.7 million jobs – or 10% of the total U.S. workforce. This includes 12.5 million jobs at eating and drinking places, plus an estimated 3.2 million foodservice jobs in other sectors such as healthcare, accommodations, education, food-and-beverage stores, and arts, entertainment and recreation.

Based on data from the U.S. Census Bureau's American Community Survey, this National Restaurant Association Data Brief contains an overview of restaurant employee demographics in 2023.
